## Template Difficulty Levels

Our library contains templates of varying degrees of difficulty for users to detect. Easy Templates will contain more spelling errors and fewer details specific to the recipient, and on the other end of the spectrum, the Hard templates will contain the most detail in relation to the recipient. The Medium level will be somewhere in the middle.

### Easy

- Many spelling errors
- No Details Specific to User in Content
- Urgent or Outrageous Requests

### Medium

- Details specific to the user such as First/Last name (accomplished through system variables)
- Common spelling errors and grammar mistakes

### Hard

- Details specific to the user such as First/Last name (accomplished through system variables)
  - Very few spelling errors if any.
-
