## iLMS

## **NEW** iLMS v5.121 (2024 Jan 9)

This release includes standard backend maintenance and bug fixes.

## **PhishProof**

### **NEW** PhishHook v4.13.11 - Gmail Add-in (2024 Jan 9)

To ensure users report suspicious emails to the proper team, Phishproof offers the Gmail Add-On, PhishHook, where end users can report potential phishing threats in real-time. As part of our holistic training solution, we promote security awareness by enabling users to actively participate in identifying possible phishing emails.
